Employee experience matters.

The places where we work define our employee experience. Inspiring spaces that encourage social connections, wellbeing and fluid collaboration support an engaging experience that attracts and retains the right people.

This catalog showcases a range of spaces, from individual workstations to community spaces, that blend together to create a workplace where people will find inspiration, meaning and purpose.

The spaces are grouped by setting type with three options including essential, standard and premium to accommodate pricing and timing requirements.

This icon represents a setting in which every product is available through our Quick Ship program.

Individual Spaces

The destination to get things done. Whether at a team bench or in a private office, individual workstations are where we go to settle in, focus and move ideas forward.

Static Benching

Supporting both solo work and team collaboration, benching provides a flexible and adaptable solution that efficiently meets the varied and fast-changing requirements of today's workers and workplaces.

Essential
Overall: 9' x 15'
Individual Workstation: 4'6" x 5'
